TAKE PART IN MAKING AN IMPACT

Dedicated to sustainability and making an impact in and outside of the office, The Kaslo is Rick Hansen certified and targeting LEED Gold and Fitwel certifications.

With landscaped roofs and an urban grove for fresh air, The Kaslo has been designed to actively decrease the heat island effect and mitigate stormwater runoff. Additionally, shading elements on the south, east, and west elevations will aid in blocking heat from the sun. Spandrel glass has been increased on the interior and north-facing elevations for enhanced opacity and privacy.

A standout feature of The Kaslo will be its 62 EV charging stations – double the city requirement. These will include 22 Level 2 Universal Chargers, 22 Tesla Level 2 charging stations, and 16 Tesla Level 3 superchargers, making it an eco-friendly and convenient choice for your employees.
