OPPORTUNITY

Avison Young is pleased to present, on an exclusive listing basis, **7014 - 7032 Ogden Road SE**, a 30,928 square foot development site. Located in the Ogden neighbourhood in Southeast Calgary, the property offers a prime development site near the future Green Line LRT station, making it ideal for transit-oriented development.

Situated in the Ogden Triangle, the site will feature the highest residential densities and tallest mixed-use buildings with active frontages and retail at grade in the community. The City of Calgary's commitment to infrastructure improvements, including the LRT expansion directly across from the property, enhances investment potential. This location connects to key amenities such as the CPKC headquarters, Historic Ogden Village, Southeast Calgary Community Resource Centre, and George Moss Park.

This development opportunity offers developers the chance to leverage enhanced future connectivity to downtown Calgary and other key areas, situated in a neighborhood demonstrating strong demand and significant growth potential.

Future Ogden Green Line LRT Station

SALIENT DETAILS

MU-2f7.0h40 (Mixed-Use Active Frontage District)

Maximum Density

7.0 FAR | 216,496 buildable sq.ft.

Maximum Height

40 mt. (131 ft.)

List Price

\$5,500,000

HIGHLIGHTS

Desirable development parcel suitable for a mixed use mid-rise building allowing for residential and commercial uses.

Located within the historic community of Ogden, this property offers easy access to the Bow River, the Ogden Business Improvement Area, and a variety of parks and recreational trails. Ogden is known for its rich history, mature tree-lined streets, and strong sense of community, making it an ideal location for new development.

Adjacent to the future Ogden Station on the Green Line LRT, this property offers prime opportunities for Transit-Oriented Development (TOD), promoting sustainable urban living with convenient access to downtown and enhancing neighborhood connectivity and value.

Zoned MU-2 (Mixed-Use Active Frontage) that supports mixed-use developments and encourages active frontages and pedestrian-oriented environments. The subject zoning allows for a combination of residential, commercial, and office uses within the same building or on the same site.

INTRODUCTION TO THE COMMUNITY

Ogden is a historic neighborhood located in the southeast quadrant of Calgary, Alberta. Established in 1912, it is one of the city's oldest communities and offers a mix of residential, commercial, and industrial areas. The neighborhood is named after I.G. Ogden, a former Vice President of the Canadian Pacific Railway, reflecting its deep-rooted connections to Calgary's railway and industrial history. Ogden features a variety of housing options, from charming older homes to newer developments, and is known for its affordable real estate, making it a popular choice for families and first-time homebuyers. The community is well-served by several schools, parks, and recreational facilities, providing residents with numerous amenities and outdoor activities.

60 minutes and over	140	4%

* Based on Civic Data

CONCEPTUAL DESIGN & FUTURE DEVELOPMENT

- Proposed Project:** The Vendor has completed a preliminary massing and parking test based on an MU-2 zoning that is comprised of commercial at grade, five storeys residential, and two storeys below grade parking. The future development would be able to support a mixed-use mid-rise building that offers a range of retail, services, office and residential uses.
- Current Status:** No Development Permit has been brought forward. The subject property is ready for development and currently sits vacant and is unencumbered by any buildings or accessory structures.
- Providing Density for a Transit Oriented Development:** Transit Oriented Development is a key component of Calgary's growth strategy, aiming to create vibrant, walkable, and sustainable communities centered around public transit stations. The city's policies and plans, such as the Calgary Transportation Plan (CTP) and the Municipal Development Plan (MDP), support TOD by promoting higher density, mixed-use developments near transit stations.
- Community Modernization:** The community of Ogden is known for its mature neighborhood sprawl, characterized by well established homes and tree-lined streets. However, it is in need of new infill development to attract new investment and unlock its potential. By introducing modern, high-density housing and mixed-use projects, Ogden can revitalize its urban landscape, enhance property values, and provide diverse housing options that meet the needs of a growing population.
