

Committed to Healthier Work Environments

Park of Commerce

1400, 1410, 1420 & 1430 Blair Towers Place
Ottawa, ON

ESG In Everything We Do

Crown considers ESG at every step of the real estate investment lifecycle. Our model of active, integrated management prioritizes environmental and social sustainability at Park of Commerce and creates the greatest value for all of our tenants.

Certifications And Awards

Crown has achieved excellence in sustainability through the following awards and certifications at Park of Commerce.

BOMA Best Gold

The BOMA Best Certification ensures our buildings are sustainable and efficient, which benefits tenants by lowering energy and water use, improving air quality, and supporting overall wellness. It shows our commitment to a cleaner, healthier, and more resilient workspace for everyone. This certification helps create a better environment through good custodial practices and waste reduction.

1400, 1420 & 1430 BLAIR TOWERS PLACE

Energy Star

The Energy Star Certification ensures the building operates efficiently, reducing energy use and lowering utility costs for tenants. It reflects a commitment to sustainability, providing a comfortable, eco-friendly space that benefits both tenants and the environment.

Fitwel Certified

Fitwel Certification rates the health and wellness of buildings, enhancing tenant well-being and boosting employee performance, retention, and recruitment. It prioritizes user experience and the overall facility environment, ensuring a healthier and more pleasant workplace for everyone.

LEED Gold Certified

With LEED Gold Certification, tenants enjoy a healthier workspace with better air quality, natural light, and sustainable features. This creates a comfortable, productive environment that supports well-being and reduces environmental impact, making it a better space for people and the planet.

Community Building

Crown's commitment to creating a smarter, more responsible model for commercial real estate investing and management extends beyond the walls of our buildings and boundaries of our properties, to our local communities and great environment.
