

55 Standish Court

WiredScore fact sheet

Connectivity isn't a nice to have, it's a requirement

That's why 55 Standish Court has worked with WiredScore to measure, improve and certify its digital connectivity.

WiredScore is the world's only internationally recognized digital connectivity rating scheme. 55 Standish Court has been awarded a WiredScore Silver rating for its outstanding digital connectivity!

WiredScore
SILVER

What does this mean?

Connectivity

Three high-speed internet providers are available (fiber or fixed wireless) giving tenants options at a competitive rate.

Fiber connectivity is ready to deliver high-speed internet to tenants.

There is free Wi-Fi in a common area to provide seamless internet connectivity and to enable guests to connect upon arrival.

Coaxial or copper connectivity is available for lower cost and diverse connectivity services to tenants.

There is spare capacity at the building points of entry to enable faster installation times and minimum disruption for new internet service providers.

There is capacity available throughout the riser(s) to enable faster installations of new connectivity services.

There is space available in the telecommunication room(s) to accommodate new internet service providers, enabling faster installation times.

Access Readiness

There is a standardized access agreement on file to expedite future installations of internet service providers.

There is a tenant connectivity guide available to assist tenants in getting connected faster.

Infrastructure

The space allocated for service provider equipment is secured and dedicated to improve data security and reduce risks of accidental damage.

Connectivity options

Fiber/Fixed Wireless	Distribution
Bell	Partial Distribution
Rogers	Partial Distribution
Zayo	Partial Distribution
Zayo	Partial Distribution

Coax/Copper	Distribution
Bell	Full Distribution

Additional details

Address

55 Standish Court, Mississauga
ON, L5R 4B2, Canada

Building Size

491,454 Sqft

Expiration

January 21, 2025

Classification

WiredScore - V3 - Office - Single Building - Occupied

Certification ID

36474

Technical jargon

Fiber

The most technologically advanced form of cabling used in buildings. Direct fiber provides dedicated high speed connections with equal download and upload speeds.

Wi-Fi coverage

Providing free Wi-Fi in common areas enables tenants and their guests to remain connected throughout the building.

Telecommunication room

A location in the building where service provider equipment is installed. Separation of telecommunication equipment from that of other utilities, such as electricity, gas or water, reduces the risk of internet outages by reducing personnel access to equipment servicing tenants.

Signed access agreements

Signed access agreement documents indicate that an agreement is in place between the landlord and the ISP that owns cables and equipment in the building. The agreements limit the potential for future conflicts or challenges between landlord and provider that may threaten the ability of tenants to maintain their current or future internet connectivity.

Tenant connectivity guide

Having a guide in place outlining the designated areas and routes for telecommunications cabling as well as information regarding access for new providers assists tenants with new connectivity installations.

Contact the WiredScore Team for any questions on connectivity or the certification.
